

My Front Door

[Verse]

I have sliced through clouds and waves

Hiked through forests tall and fields of emerald green

Marvelled at the mighty whales

Soaring eagles and all beauty in between

[Chorus]

I've discovered secret places that no man has seen before

But there's nothing like the sight of my front door

[Verse]

I've met paupers, I've met kings

Walked through cities with their neon lights aglow

Immersed myself in thermal springs

Watched Aurora putting on its famous show

[Chorus]

I have entered ornate palaces, cathedrals by the score

But none compare to entering my front door

[Bridge]

I turn the key to hear familial laughter

Catch sweet aromas wafting from the stove

I see the smiling faces race to greet me

Feel Ma's hug as she whispers ... 'Welcome Home'

[MUSICAL INTERLUDE]

[Verse]

Dad's old jokes still get some laughs

Pop is proud that he beat me in chess once more

Ma brings out old photographs

Unlike me, they've all found what they're looking for.

[Chorus]

I'll soon travel once again but won't forget as I explore

The love that brings me back to my front door

[SHORT MUSICAL INTERLUDE]

Yeah I'll soon travel once again but won't forget as I explore

The love that brings me back to my front door

My front door

My front door
