

THE GREAT SUBURBIA

**I survived and I'm still alive
In the great suburbia
I survived somehow still alive
In the great suburbia**

**I survived and I'm still alive
In the great suburbia
I survived and I'm 25
In the great suburbia**

I'm a man with ambition
I'm jumpin' out of my skin
I'm just hopin' and wishin'
One day my life will begin

**I survived and I'm still alive
In the great suburbia
I survived somehow still alive
In the great suburbia**

Married, Children
Mortgage, Work hard,
Mow lawns, wash car
Tidy back yard

**I survived and I'm still alive
In the great suburbia
I survived and I'm 45
In the great suburbia**

I need a good dietician
Pills for my blood pressure too
One day I will go fishin'
But right now there's too much to do

**I survived and I'm still alive
In the great suburbia
I survived somehow still alive
In the great suburbia**

Kids have left home
Wife has left me
All the world
Is out to get me

**I survived and I'm still alive
In the great suburbia
I survived and I'm 65
In the great suburbia**

I've lost my hearing and vision
There's somethin' wrong with my skin
I never got to go fishin'
When did my life quite begin?

**I survived and I'm still alive
In the great suburbia
I survived somehow still alive
In the great suburbia**
